PROFESSIONAL SUMMARY

Python & AI Developer with hands-on production experience building RAG-based chatbots, AI-powered web analysis platforms, event management systems, Gmail & email automation tools, and full-stack admin dashboards. Skilled in FastAPI, LLM integration, Generative AI, MongoDB, and scalable backend architecture. Completed B.E. in Computer Science Engineering (CGPA 7.8).

WORK EXPERIENCE

Python & AI Developer / BRANDINGBEEZ, Coimbatore | Dec 2025 – Aug 2026

- Built a production-grade AI web analysis platform (brandingbee.co.uk) automating website scraping, keyword extraction, and SEO report generation via LLM integration, FastAPI, and Node.js.
- Deployed a RAG-based AI chatbot (acgraphics.com) using FastAPI, OpenAI API, and FAISS with intent classification, brand-tone enforcement, enquiry detection, and real-time fallback mechanisms.
- Built a live Gmail automation system (Octopus.ai) using OAuth 2.0 for secure mailbox access, automated unsubscribe processing, and Swagger UI documentation.
- Developed an Events Admin Dashboard (100+ registrations, 5 event sessions) with live analytics, reminder center, and Zepto Mail-integrated email center for sent/bounced tracking.
- Built a Careers Admin CRM Dashboard for end-to-end recruitment tracking across 10+ roles — shortlisting, interview scheduling, attendance, and CSV export, backed by MongoDB.

KEY PROJECTS

Events Admin Dashboard — React, Node.js, MongoDB, Zepto Mail, node-cron

- Built a full-stack event management system handling 100+ real registrations across 5 sessions (HVAC, Roofers, Plumbing, Electrician) with seat capacity tracking, waitlist management, and live session analytics.
- Integrated Zepto Mail credentials for transactional email delivery with a Reminder Center tracking per-registrant email history, and an Email Center for bulk targeted messaging filtered by attendance and category.

Careers Admin CRM Dashboard — React, Node.js, MongoDB, FastAPI

- Full-stack recruitment CRM tracking applications across 10+ roles with candidate filtering, interview scheduling, shortlisting pipeline, attendance management, and CSV export — all powered by real MongoDB data.

Event Registration Platform — React, Node.js, Express, MongoDB Atlas, Zoho Mail, GTM

- Full-stack registration system with automated 5-email sequences, dynamic multi-event forms, live seat countdowns, cron-scheduled reminders, and GTM funnel analytics.

Computer Vision Suite — Python, OpenCV, Pytesseract, Haar Cascade

- License Plate Recognition (ALPR) with edge detection, contour filtering, and OCR; real-time Face Recognition with Haar Cascade; Moving Object Detection using frame differencing and bounding-box tracking.

EDUCATION

B.E. Computer Science Engineering — Jansons Institute of Technology, Coimbatore | 2022–2026 (Completed) | CGPA: 7.8

HSC (2022): 83% | SSLC (2020): 93% — Scism. Mat. Hr. Sec. School, Bodinayakanur, Theni

INTERNSHIP EXPERIENCE

Data Analytics / AI / Machine Learning Intern / NOVITECH R&D PVT. LTD | 2023–2024

- Completed three internships in Data Analytics, AI, and Machine Learning — hands-on experience in model building, feature engineering, and data pipelines.

IoT Intern / IYARKAI TECH LAB PVT. LTD, Chennai | 2023

- Worked on IoT-based embedded systems and sensor integration projects.

Business Analyst Intern / SAKTHI VEERA GREEN ENERGY PVT. LTD, Chennai | 2023

- Analyzed business processes for freeze-drying machinery and delivered structured reports.

TECHNICAL SKILLS

Languages: Python, JavaScript, Node.js, C, HTML, CSS, React, Next.js

AI & ML: Generative AI, LLM Integration, RAG, Prompt Engineering, LangGraph, Dialogflow, NLP, Computer Vision, Scikit-learn, Keras, OpenCV

Backend & APIs: FastAPI, RESTful APIs, Express.js, OAuth 2.0, Token-Based Authorization, Background Task Processing

Databases: MongoDB, Supabase, SQL, FAISS (Vector Indexing), Vector Databases, Data Modeling

Email & Automation: Zepto Mail, Zoho Mail, Nodemailer, Gmail API (OAuth 2.0), node-cron, Automated Email Sequences

Tools: Git, GitHub, Docker, Postman, Swagger UI, VS Code, GTM, Headless Browser Automation

CORE COMPETENCIES

Programming Languages (C, C++, Python) | Data Analytics | Artificial Intelligence | Machine Learning

ACHIEVEMENTS

- Won 2nd prize in paper presentation at Karunya University.
- Selected in Top 100 teams at Hack4Purpose national-level idea presentation, Anna University, Chennai.
- Active participant in technical events and competitions across various colleges.
